Embracing traditional Aboriginal healing techniques that include a Li'Tya hand and foot treatment, exfoliation, body wrap, rhythmic full body kodo massage, conditioning hair and scalp treatment, and facial. Through the power of nourishing Australian native essential oils and plant extracts, cleansing earth ochre's and purifying desert salts, the skin of the face and body is cleansed, invigorated, restored and nourished; tired muscles are eased and energised, and all the body systems are rebalanced and rejuvenated.

MINERAL PURIFYING RITUAL

120 MINS

Marine therapy is a powerful tool to increase the body's circulation, aiding the body's "self-cleansing" mechanisms. Detoxify with a zesty sea polish and invigorating algae wrap. While your wrap is penetrating, enjoy a deep cleansing facial treatment including exfoliation and rebalancing seaweed mask. A stimulating full body massage completes this ritual.

MINERAL WELLBEING RITUAL

120 MINS

This treatment combines the benefits of salt polish exfoliation to aid the medicinal penetration of healing and moor mud body wrap actives, prized for their high mineralising and balancing content. While your body wrap absorbs, completely relax with a soothing scalp massage. Then a rejuvenating and restoring hydrotherapy massage bath, leaves you simultaneously calm and energised.

MINERAL YIN RITUAL

90 MINS

The Yin Ritual begins with a mineral salt polish to smooth away dry skin cells and purify the skin. A waterlily gel is applied to the body to calm and deeply repair the skin. Followed by a facial cleanse, a cooling ginkgo eye mask, a customised aromatherapy soothing gel mask and then finally a decongesting massage to the calves and feet with tension relief gel.

MINERAL YANG RITUAL

90 MINS

The Yang Ritual begins with an invigorating sea polish to smooth and soften the skin, increase circulation and aid internal detoxification. Your body is then cocooned with a natural Rassoul mud that delivers mineralising, rejuvenating and smoothing effects, while relieving fatigue. Whilst cocooned, your face is cleansed and exfoliated, then massaged under warm steam. Then receive a final rejuvenating lift with dry oil body moisturiser.

HANDS & FEET

Choose from a wonderful selection of ELES mineral nail enamel polish with your foot or hand therapy to enhance the look of your hands and/or feet.

MINERAL FOOT THERAPY

OPTIONAL NAIL POLISH - 15 MINS

Your feet resurface refreshed, hydrated and velvety-smooth.

MINERAL HAND THERAPY

This treatment includes a gentle exfoliation to remove accumulated impurities and dead cells, followed by an application of a lightening mask. As a final touch, a hydrating veil of replenishing hand cream is massaged in, rendering your skin tone visibly brighter for attractive, evenly toned hands.

WATER THERAPY

THE RETREAT

60 MINS / 90 MINS

Tucked in a secluded, peaceful corner of the spa, the Retreat is an indoor/outdoor Mineral Water therapy area with sundeck, guest lounge and open fireplace. Soak away stress and tiredness in Australia's only true "taking the waters" spa; the world's most enduring healing traditions for which European mineral spas are so famous.

Two 37°-39° mineral water plunge spa pools revive and relax stressed bodies, and a cooler plunge pool invigorates. The transition from hot to cool stimulates the circulatory system, feeding nutrients to every organ and all the tissues of the body. The covered spa pools and plunge pool are on the Retreat veranda, overlooking beautiful landscaped gardens. The lavender-infused basalt stone sauna is the only one in the Southern Hemisphere and has to be experienced to be believed. The hot rocks are plunged into the copper cauldron filled with essential oils. Then step into the infrared detox box and be engulfed by gentle warmth that activates the body's natural cleansing process. The "soft" radiant heat created has been compared to the comforting warmth of sunlight through a glass window on a winter's day. The wet steam room assists in opening the pores and clearing chest and sinus congestion.

HYDROTHERAPY MASSAGE BATHS

25 MINS

Enjoy this luxurious hydrotherapy massage bath with added Pepperberry peat mud as the 180 high pressure water jets automatically target key areas of the body. Enjoy this treatment as a single or take advantage of our unique dual room with two hydrotherapy baths to share with a friend or loved one.

When we relax, we breathe deeper, the lymph system is energised and the reproductive and digestive systems are strengthened, which is all reflected in the look and feel of our skin.

BODY SIGNATURE MINERAL COCOONS

45 MINS/60 MINS

Our exclusive signature cocoons deliver mineralising, replenishing, rejuvenating, and smoothing effects, while relieving fatigue and exhaustion. Cocoon treatments are even more special when on our Soft Pack Floatation Beds; the only ones in the Southern Hemisphere. Wrapped in a warm, water-heated blanket, the treatment bed lowers into 6 inches of water (you don't get wet). Cocooned and submerged, you'll float in a peaceful, almost weightless environment as our special wrap aids your body in the absorption of muds, oils, creams and other products, thereby dramatically increasing your body's absorption rate, decreasing stress and fully relaxing the entire body.
