Conference & Events at Peppers Noosa Resort & Villas

The accommodation is elegant, from spacious resort apartments to luxe villas.

Inspire creativity and focus in the rainforest, and let our creative and experienced Peppers planners introduce you to the possibilities.

Peppers Noosa Resort & Villas and Noosa & District Landcare Group

Peppers Noosa Resort & Villas, alongside Noosa Council, the National Parks Association, and the Queensland Government, is proud to partner with Noosa & District Landcare Group (NDLG), and will donate \$1 for every day delegate package sold to the Noosa Koala Habitat Recovery Project.

Across the nation, but particularly in Queensland, koala's are in the midst of a significant decline mostly as a result of incremental habitat destruction and the effects this has on population health. The Noosa community has recognised that protecting existing habitat, whilst important, is not enough to ensure the long term survival of Australia's most iconic and loved species. We need to rehabilitate vital corridors and strategic habitat to facilitate greater numbers and ensure the long-term genetic health of our remaining koala populations. The Noosa Koala Habitat Recovery Project involves supported forest natural regeneration and the planting of over 302,000 mainly koala food trees to re-create the Noosa Lowlands to Hinterland Corridor Link.

Whilst koalas are the target species motivating partners to undertake this project, a significant number of other threatened species will directly benefit, including the Glossy Black Cockatoo and Richmond birdwing butterfly. Once rehabilitated, the area will be allocated as National Park under the Nature Conservation Act 1992 with protection and management secured in the future.

Fabrice Grau, Regional General Manager, with Amari the koala.

Inspired Catering with fresh, local produce

A testimony to the land it lives on, it's time to usher in a new era for Australia's long-loved dining destination Noosa. Hidden in a private nook of the headlands with a menu as ever changing as the seasons and serving a consistently rich quality as sure as the sea, we invite you to celebrate the abundance of our Sunny Coastal Kitchen, Park & Cove.

Park & Cove is a love letter to local, where staff greet you like an old friend and the menu designed with a commitment to genuine provenance; all produce sourced and foraged right here, from our community.

Our kitchen is spearheaded by Executive Chef Andrew Wilcox, a third generation Noosa local. Andy's cooking journey began at the age of 13 with a keen appetite to expand his knowledge. A school-based apprenticeship followed which he continued for three years, and once completed he purchased a one-way ticket to Melbourne to explore the world of food from a different perspective. Andy was quickly thrown into the world of responsibility, managing the kitchen at busy 'Cadevin on Bourke Street' where he embraced the local produce, venturing to the food markets every Saturday, a passion which he has carried forward throughout his career.

Our Conference & Events Banquet Kit has Andy's stamp of approval, and focuses on nourishing, local, ethically sourced produce from the Sunshine Coast region, and offers dining options which support healthy cognitive function and improved memory.
