SILO HOTEL  
LAUNCESTON

## Conferences at Peppers Silo Hotel

On the King Street Wharf overlooking the conjunction of the North Esk and Tamar Rivers, a piece of Launceston history has been converted into an architectural triumph. The shell of dilapidated grain silos have been revitalised, transforming them into an inspirational meeting place, complete with sweeping views of Seaport, Royal Park, the Tamar River Basin and Cataract Gorge.

Welcome to Peppers Silo Hotel, a meeting and events venue for 10 to 180 delegates or guests, combining historic charm with cutting edge design and technology. Your delegates will enjoy insights into river life of yesteryear in between participating in activities uniquely offered by the surrounds, including river cruises, mountain biking, or food and wine trails through the Tamar Valley region. The maritime romance of a riverfront location will continue to work its charm as delegates dine on local produce at the on-site Grain of the Silos Restaurant, or retire for the evening to their stylish accommodation with dramatic water views.

As it was in times past, the site of Peppers Silo Hotel is again a focal point of trade and commerce in Launceston. Come and see what we have in store for you.
